USE OF TRAINED INTELLIGENCE ANALYSTS

50X1-HUM

1. Four slipways are in use at present at the Neptunwerft in Rostock. In March 1948 the keels of two torpedo boats were laid. At the beginning of the same month, a destroyer built according to German designs was launched and is now lying at the quayside fitting out. In addition to this new construction, the shipyard is engaged in the repair of both Russian and German ships.
2. On 13, 14, and 15 April 1948, twelve submarine pressure-hulls were loaded into river craft at Riesa and transported downstream. The hulls, each of which appeared to consist of about seven sections, were manufactured by the Lauchhammerwerk, Riesa, under the code name "Zement-rosttrommel".
